PROFESSIONAL PROFILE

Fullstack Developer

School of Code (April 2022 - Aug 2022)

- Chosen from over 1,500 applicants to attend an intense 16 week fullstack development bootcamp.
- Profficient in working in a pair programming environment.
- Final project as a team of 6 was to build an application that helped people. Our application helps people to find out more about their local foodbank as well as allowing foodbanks to reach out to the wider community .
- In the backend, I assisted with setting up CRUD routes that would talk to our database and API as well as debugging.
- I was responsible for the overall documentation for both frontend and backend.
- I assisted in implementing Auth0 and various other components in the frontend.
- I took part in the initial design of the app and overall development of the UI & UX.
- Worked with Agile methodology and have experience leading teams as Scrum Master.
- I challenged myself by learning MongoDB and Mongoose to better represent our backend.
- Took part in the mid-term project as a team of 4 and built an app that could help bootcampers with tracking skills using star rating and listing goals.
